Dubai provides the ideal backdrop for an event of global magnitude and relevance such as the ARABPLAST 2019. While the UAE is creating history across transnational borders as the commercial hub of Asia, Europe & Africa, Dubai is the embodiment of the steady progress that happened in the last few decades in the GCC nations. The government of Dubai has always been pursuing a free and balanced economic policy that has given it a good reputation in international commercial and economic communities. Dubai has its own ambitious strategic development plan that focuses on the private sector and emphasizes capital intensive industries. This has encouraged world class enterprises to invest in Free Zones, mega projects and record-breaking initiatives.

The Plastics Economy is an ambitious
Because of the unique properties of plastic materials, they are used in a wide range of application sectors, such as packaging, building and construction, automotive and aeronautics, electrical and electronic equipment, agriculture, leisure and sports equipment or medical and health products, to help us to live and build a more sustainable world.

- The GCC polymer industry which is developing at a compound annual growth rate (CAGR) of 3 per cent, while supporting further downstream development, is expected to reach 34.5 million tonnes by 2022.
- By 2022, nearly 70% of all incremental supply growth will come from commodities polymers, which represent 89% of GCC polymers capacity.
- The industry’s capacity expanded in 2016 by as much as 5%, reaching 27.1 million tons.
- Plastic consumption in the GCC is increasing rapidly and reached 94 kg per capita in 2016.
- A number of industrial parks focused on polymer conversion and multi industry are under development in Saudi Arabia, UAE and Oman, with some being built next to big resin production facilities.
- The UAE plastics industry is the fastest growing in the GCC, growing by 24.2% per annum in the past decade.
- The USD 4.5 billion Abu Dhabi Polymers Park project in Mussafah, Abu Dhabi will consume between 12- million tons/year of plastics, mainly polyethylene (PE) and polypropylene (PP).
- The UAE plastics industry is the fastest growing in the GCC, growing by 24.2% per annum in the past decade.
- The USD 4.5 billion Abu Dhabi Polymers Park project in Mussafah, Abu Dhabi will consume between 12- million tons/year of plastics, mainly polyethylene (PE) and polypropylene (PP).
- Built by Sharjah Asset Management, the investment arm of the Government of Sharjah, Al Saja'a Industrial Oasis is expected to be one of the largest industrial projects in the region.

Dubai City of the future
The Largest Plastics, Petrochemicals and Rubber Industry Trade Show in MENA Region.

Yes, it’s an event that would provide a greater leverage to international exhibitors and trade visitors with decision-making authority. ARABPLAST 2019 opens the door to penetrate the vast MENA region’s plastics, petrochemicals and rubber industry.

ARABPLAST is envisioned to make better business sense to the participants who are giving shape to a bold, new world. The leaders of the plastics and rubber industry would be here to unveil products solutions, cutting edge technology, and revolutionary innovations and forge international alliances.

Seize this opportunity as a manufacturer or service provider at ARABPlast 2019. It’s the perfect venue to showcase your products and innovations, reinforce and strengthen your brand, develop contacts and sign profitable new partnerships, continue conversations with current customers, partners and prospects.

Thinking of exhibiting?

The show covers raw materials, such as additives and polymers. A wide spectrum of plastic machinery, plastic/rubber processing technology, pre and post-processing systems, plastic packaging technology, injection moulding, blow moulding, wrapping technology, extrusions, chemicals and additives, semi finished goods, engineering plastics and plastic products.

Arabplast 2017 is 12% bigger than the 2015 edition, following greater response from exhibitors and sponsors.

Arabplast is also ranked as No. 1 show in the region in plastics, petrochemicals and rubber industry.

A record number of 972 exhibitors from 39 countries and 19080 trade visitors came from 123 countries at the Arabplast 2017.

55% of the trade visitors showed their interest for Plastic machinery & Plastic packaging, while some 45% of the visitors expressed their interest for raw materials and other sectors. The trade visitors are employed as high-level management. 26% of Arabplast visitors indicated that they were influential in making their company’s investment decisions.
The right time for your business decisions!

ArabPlast 2019 has been envisioned to make better business sense to the participants who are giving striving to shape up a better world. The captains of the plastics and rubber industry would be here to unveil ground-breaking product solutions, cutting-edge technologies, and revolutionary ideas and forge international alliances.

This global event would provide greater leverage to international exhibitors and trade visitors with decision-making authority.

Seize this opportunity as a manufacturer or service provider at ArabPlast 2017. It’s the perfect venue to showcase your products and innovations, develop contacts and sign profitable partnerships.

WHY ARABPLAST

- Develop global business contacts with visitors from 123 countries
- Lucrative business deals from Arabian Peninsula
- Face-to-face with key decision makers
- Great networking opportunity with diverse industry verticals
- Right backdrop to increase brand value
- Exposure to key processing and user industries

- Expand and consolidate regional market presence
- Identify and recruit representatives, agents/distributors
- Compete and carve out a niche with the best in class participants

WHY ARABPLAST

The best way to pay for a lovely moment is to enjoy it

An evening to remember ……filled with music, entertainment and ……..sumptuous food!!

Relax after days of tiring business dialogues, and what better way than to let your hair down at the Exhibitor’s Cocktail-Dinner Reception at a prestigious, sprawling five star venue.

Dine at the most lavishly spread tables of International Cuisines, Live Stations, while you enjoy an exotic mix of international entertainment by chosen professional performers!

Enjoy the satisfaction that comes from doing a great success.
### Materials, Chemicals & Auxiliaries

- Dyes & dye stuff
- Electro chemicals
- Electroplating chemicals
- Fertilizers
- Fillers
- Filters
- Fine chemicals
- Foam and intermediates
- Inorganic chemicals
- Laboratory chemicals
- Oil field chemicals
- Paint resins
- Performance chemical
- Petrochemicals
- Pharmaceutical bases and raw materials
- Polymer raw materials
- Reinforcing fibers-materials
- Printing inks
- Rubber chemicals
- Speciality chemical
- Starting materials, intermediate, polymerization, auxiliaries
- Solvent
- Synthetic chemical, fibres, bristles, tapes etc.
- Thermoplastics
- Thermoplastic elastomers
- Thermosts
- Additives
- Adhesive and glues
- Basic chemical bulk drugs
- Catalyst
- Chemical intermediates
- Cleaning chemicals
- Coating compounds
- Corrosion inhibitors
- Cosmetic chemicals
- Detergent raw materials

### Plastic Packaging Machinery & Technology, Equipment & Services

- Machines and Equipment for Processing Recycling
- Mixers for food & liquid
- Two roll mills
- Powder compactors
- Crushers, shredders, grinders
- Pelletizers
- Compounding plant

### Post Processing Machine

- Thermoforming machine
- Bending and folding machine
- Pipe belling and socking machines
- Cutting machines
- Winding equipment
- Slitter rewinders
- Splitting machines, peeling machines
- Punching and perforating machines
- Milling machines
- De-flashing equipment
- Bag and sack making equipment

### Ancillary Equipment

- Measuring, Control and Test Equipments
- Thickness gauges (on line)
- Edge and centre sensors
- Control equipment for pressure
- Control equipment for temperature, heat
- Measuring and test equipment for rheological properties
- Measuring and test equipment for mechanical and dynamic properties

### Other equipment for pre-processing, recycling

- Machinery and Plant for Processing
- Extruders and extrusion lines
- Extrusion lines for films, sheets, filaments etc.
- Extrusion lines for sheeting of pipes and cables
- Extrusion lines for rubber
- Injection molding machines
- Blow molding machines
- Presses
- Compression and transfer
- Tabletting presses
- Machinery for foam, reactive or reinforced resins
- Pre-expanders, foaming machinery for parts and blocks
- Reaction molding machinery and plant
- Filament winding machines
- Machinery for open cast molding
- Pultrusion equipment
- Spraying equipment
- Other processing machines
- Calendars, rollers
- Rotating molding machines
- Sheet casting machine
- Machine for the tire industry

### Printing equipment

- Marking equipment
- Embossing equipment
- Laminating plant
- Coating plant
- Flocking plant
- Metallizing plant (vacuum deposition)
- Equipment for in-mold decoration
- Molds and Dies
- Injection and compression mold
- Blow molds
- Extrusion dies
- Standard mold parts, bases
- Mold clamping system and energy couplings
- Mold and die cleaning equipment
- Other molds

### Parts and Components

- Screw
- Barrels
- Rolls
- Nozzles
- Heating elements

### Semi-finished Products, Technical Parts and Reinforced Plastics

### Plastics Finished Products

- Services
- Literatures and periodicals, technical books
- Trade associations
- Research and consulting services
- Computer software services

(This list is illustrative only and not exhaustive.)
